

STRATUM TABLE

Anodised Aluminium
 table top: 200(l) x 90(w) cm
 trestles: 70(h) x 90(w) cm
 91 kg

Inspired by rock strata, the surface of this table is made from layers of architectural aluminium profiles in different shades of black. Clamped together using heavy industrial brass fixings, the corrosion-resistant aluminium tabletop sits on a pair of sand-cast aluminium trestle legs.
